

Planer Technicians Course

by Wolftek

Wolftek's Planer Technicians Course covers necessary details for millwrights going into the field of sawmill planers in a concise and thorough five day course. Practical, hands on, training is made possible by having three planers on site and a tour of a local mill adds to the student's complete understanding of how they operate. Those who complete the course and test will receive a certificate of completion.

Overview:

- Planer Descriptions
- Adjustment & Alignment
- Replacing & Sharpening Knives
- Wood Characteristics
- Surface Defects
- Planer Set-Up Procedure
- Solutions to Common Problems
- Maintenance
- Safety
- Target Sizes
- Appearance
- Future Improvements

Students should bring their own PPE including, but not limited to, SAE footwear, hard hat, high-vis vest, safety glasses, gloves, hard hat and hearing protection.

Lunches are provided by Wolftek to those in attendance.
